

# Navigating Care Portal

## Appointments

The Appointments page within the Navigating Care patient portal allows you to view your upcoming clinic appointments, add them to your personal calendar, print details, get directions and more.

View all **Upcoming Appointments**. Appointments with providers outside your clinic may not appear

Click your appointment location to view directions through your default maps provider

View your **Past Appointments** from the current and previous year.

Start by clicking on the **Appointments** tab

Click **Print** to open a printer-friendly version of this page or save as a PDF

Click **Add to calendar** to download or email appointment details. Open the file to save the appointment to your personal calendar

Click "**Load all appointment history**" to view older appointments
